The lirst day of university is always memorable, and for me.
It was an unforwartable moment

it was an unforgettable moment.

I had heard that the university had rankings.

University life was quite different from both college and school life.

In university, you had to do most of your studies on your own.

I applied for the hostel and was admitted.

I have had an excellent time at university, especially while staying in the hostel. The hostel felt like our second home because all the students there spent great time together.

spent great time together.

I had four best friends in university who stayed with me in the hostel.

Home Village School College University CV WELCOME TO MY VILLAGE My house is a short distance away from the village.

My village is very beautiful and green.

My village typically has limited shops, schools, and healthcare facilities.

A lot of sports are played in my village, such as cricket, football, and volleyball.

Our neighbor is very kind; they share in both happiness and sorrow with each other.
